

# CrypDist

A De-centralized Distribution System

# Outline

- What?
- Who?
- Why?
- How?
- When?

# Who?

- Genomics Industry
  - Massive data related research
  - Reaching data is difficult
  - Data loss is possible

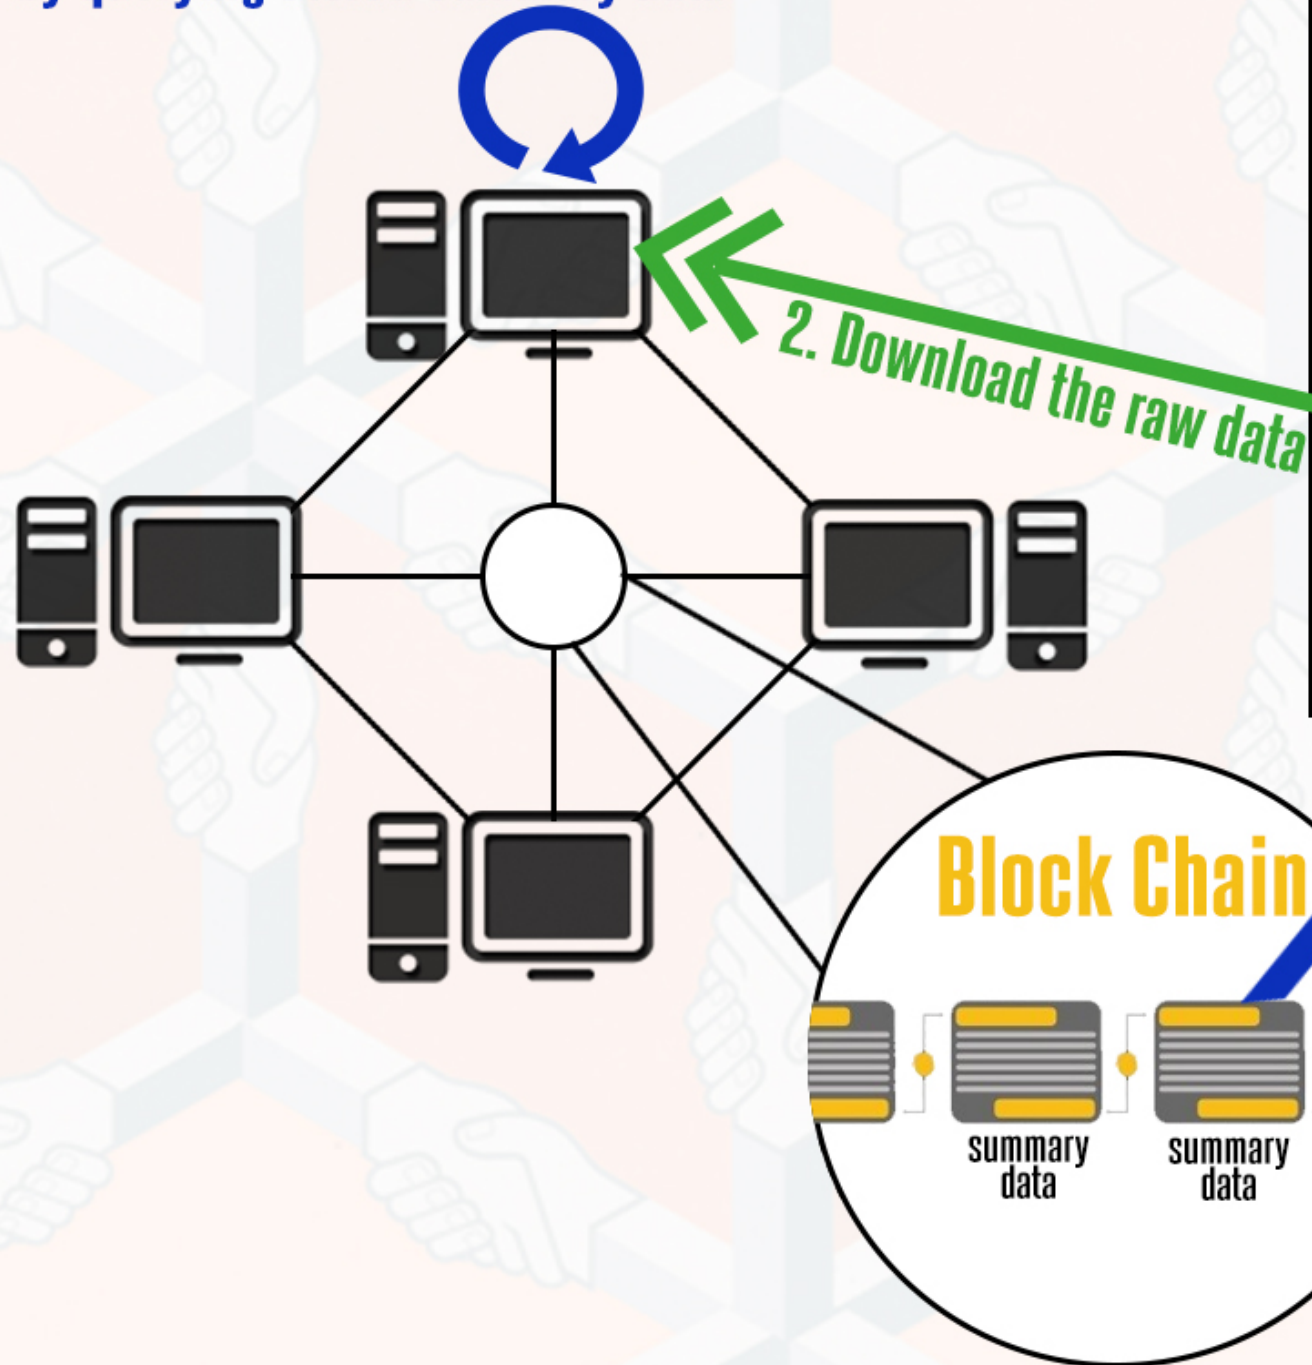

# Why?

- To prevent data loss
- To break the hierarchy
- Free data access

# How?

- Blockchain
  - Data Summary
  - Synchronization
- Decentralized distribution

1.1 Find the block of desired data  
by querying stored summary data

## Distributed Data System

1.2 Block contains the address of  
raw data

# When?
